

## NOTICE OF COMPLETION

### Acton Wastewater Treatment Plant Municipal Class Environmental Assessment Study

Halton Region has completed the Schedule C Class Environmental Assessment study for the Acton Wastewater Treatment Plant located at 202 Churchill Drive, Halton Hills. The preferred strategy is to construct additional wastewater capacity at the existing plant.

#### Background

As part of the Environmental Assessment Study, Public Information Centre meetings were held on June 26, 2007 and November 16, 2010. The first Public Information Centre provided background information, a long list of alternatives to increase wastewater capacity and the proposed evaluation criteria. The second Public Information Centre presented the preferred strategy and recommended design concept for the proposed plant expansion. Input and comments received from key stakeholders such as residents, Credit Valley Conservation and the Ministry of the Environment were incorporated into the Environmental Study Report (ESR).

#### Environmental Study Report (ESR)

By this Notice, the ESR is being placed on the public record for review. The 30-day public review period begins on March 31, 2011 and ends May 4, 2011. The ESR is available on the project website: [www.halton.ca/EAs](http://www.halton.ca/EAs).

A paper copy of the ESR is also available for public review at the following locations:
