Basement Flooding Mitigation Project Town of Halton Hills (Georgetown)

Sewer back up
prevention

Wastewater service
line(s) to property

Notice of Planned Construction PR-3042T

Spring 2020

About This Project

IMPROVEMENTS

Halton Region is planning to enhance the wastewater collection system on various streets, within Ward 3 in the Town of Halton Hills (Georgetown), to mitigate basement flooding risks in the project area (see attached map).

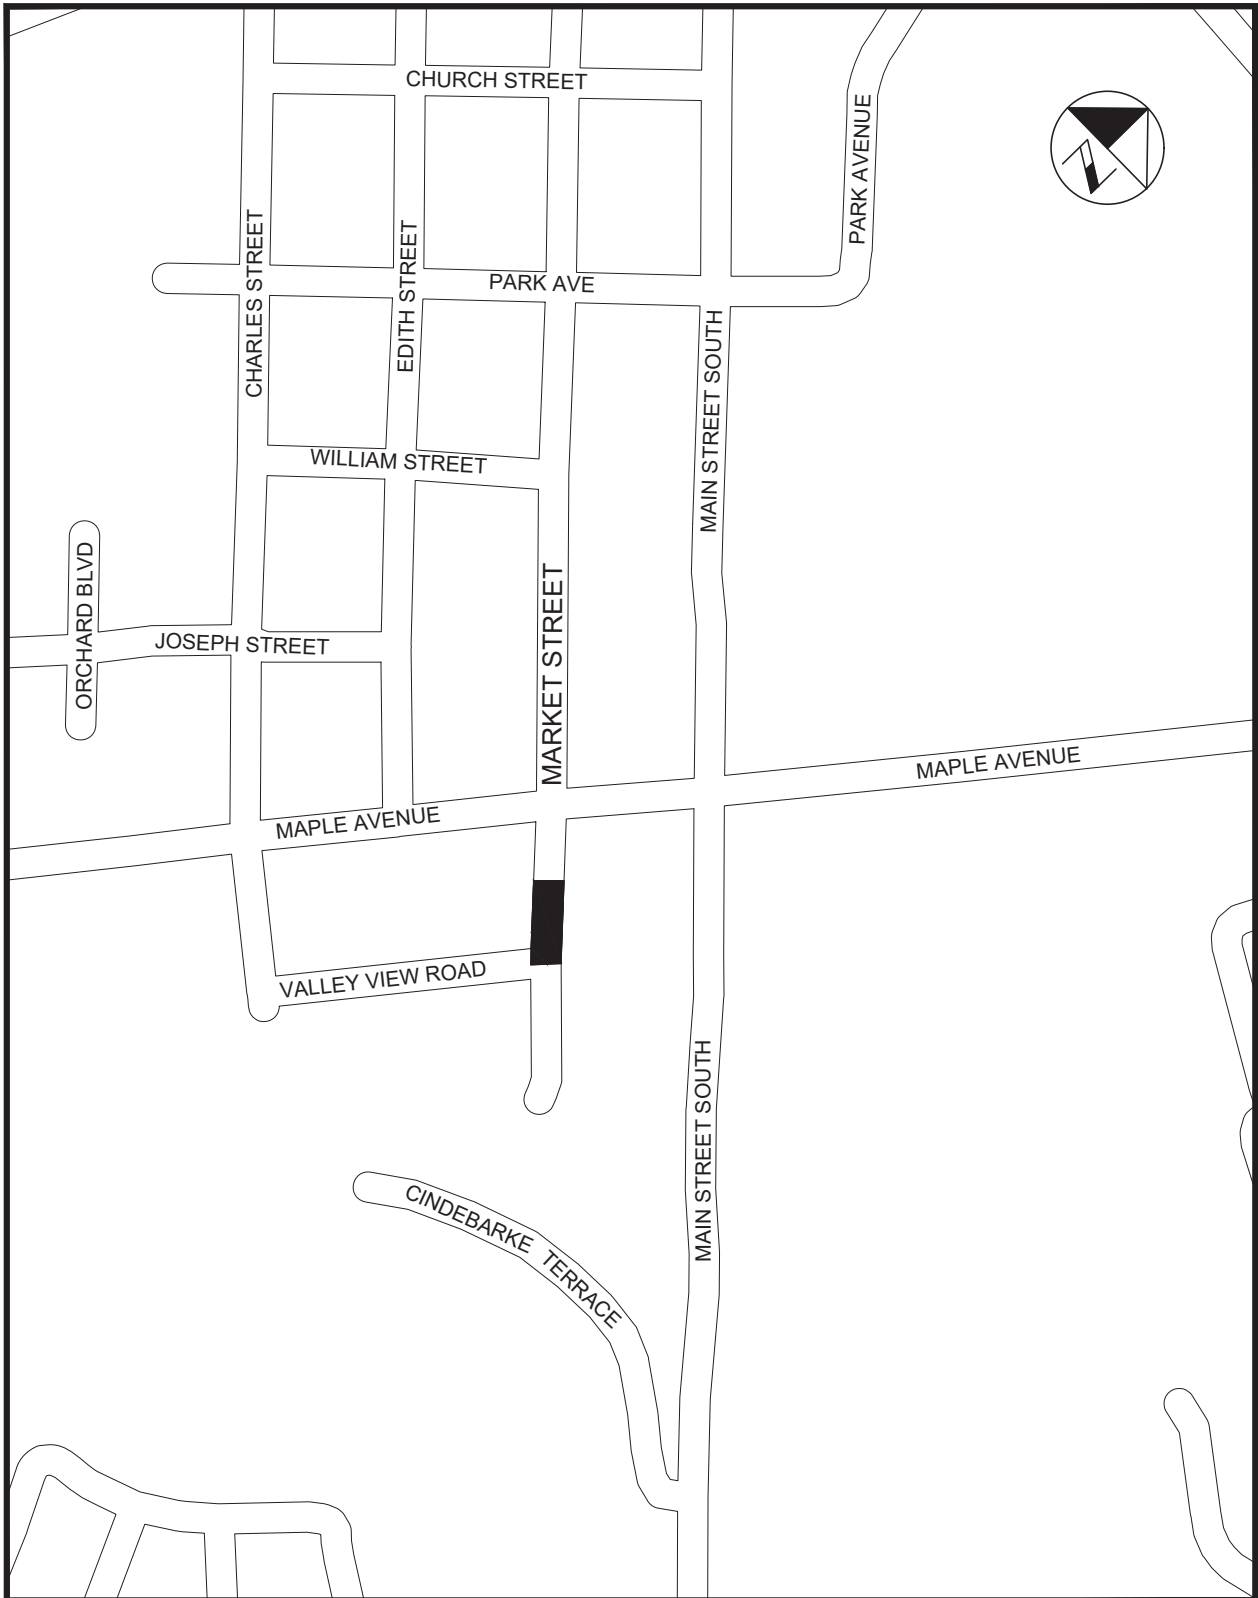

A Notice was previously issued in June 2019. Since this time, the construction start of this project has been revised and is now tentatively scheduled to begin in the spring of 2020. A more detailed letter will be sent once the proposed construction dates are established.

MORE INFORMATION

Building a Better Halton is about more than construction. It is about investments in infrastructure, service delivery improvements and building complete communities that maintain the high quality of life that residents expect and enjoy.
