

# Building a Better Halton

January 17, 2020

## Basement Flooding Mitigation Project, Town of Oakville

Sewer back up  
prevention

Wastewater service  
line(s) to property

### Notice of Planned Construction – PR-3042T

Spring 2020

#### About This Project

#### IMPROVEMENTS

Halton Region is planning to enhance the wastewater collection system on various streets, within Wards 1 and 2 in the Town of Oakville, to mitigate basement flooding risks in the project area (see attached map).

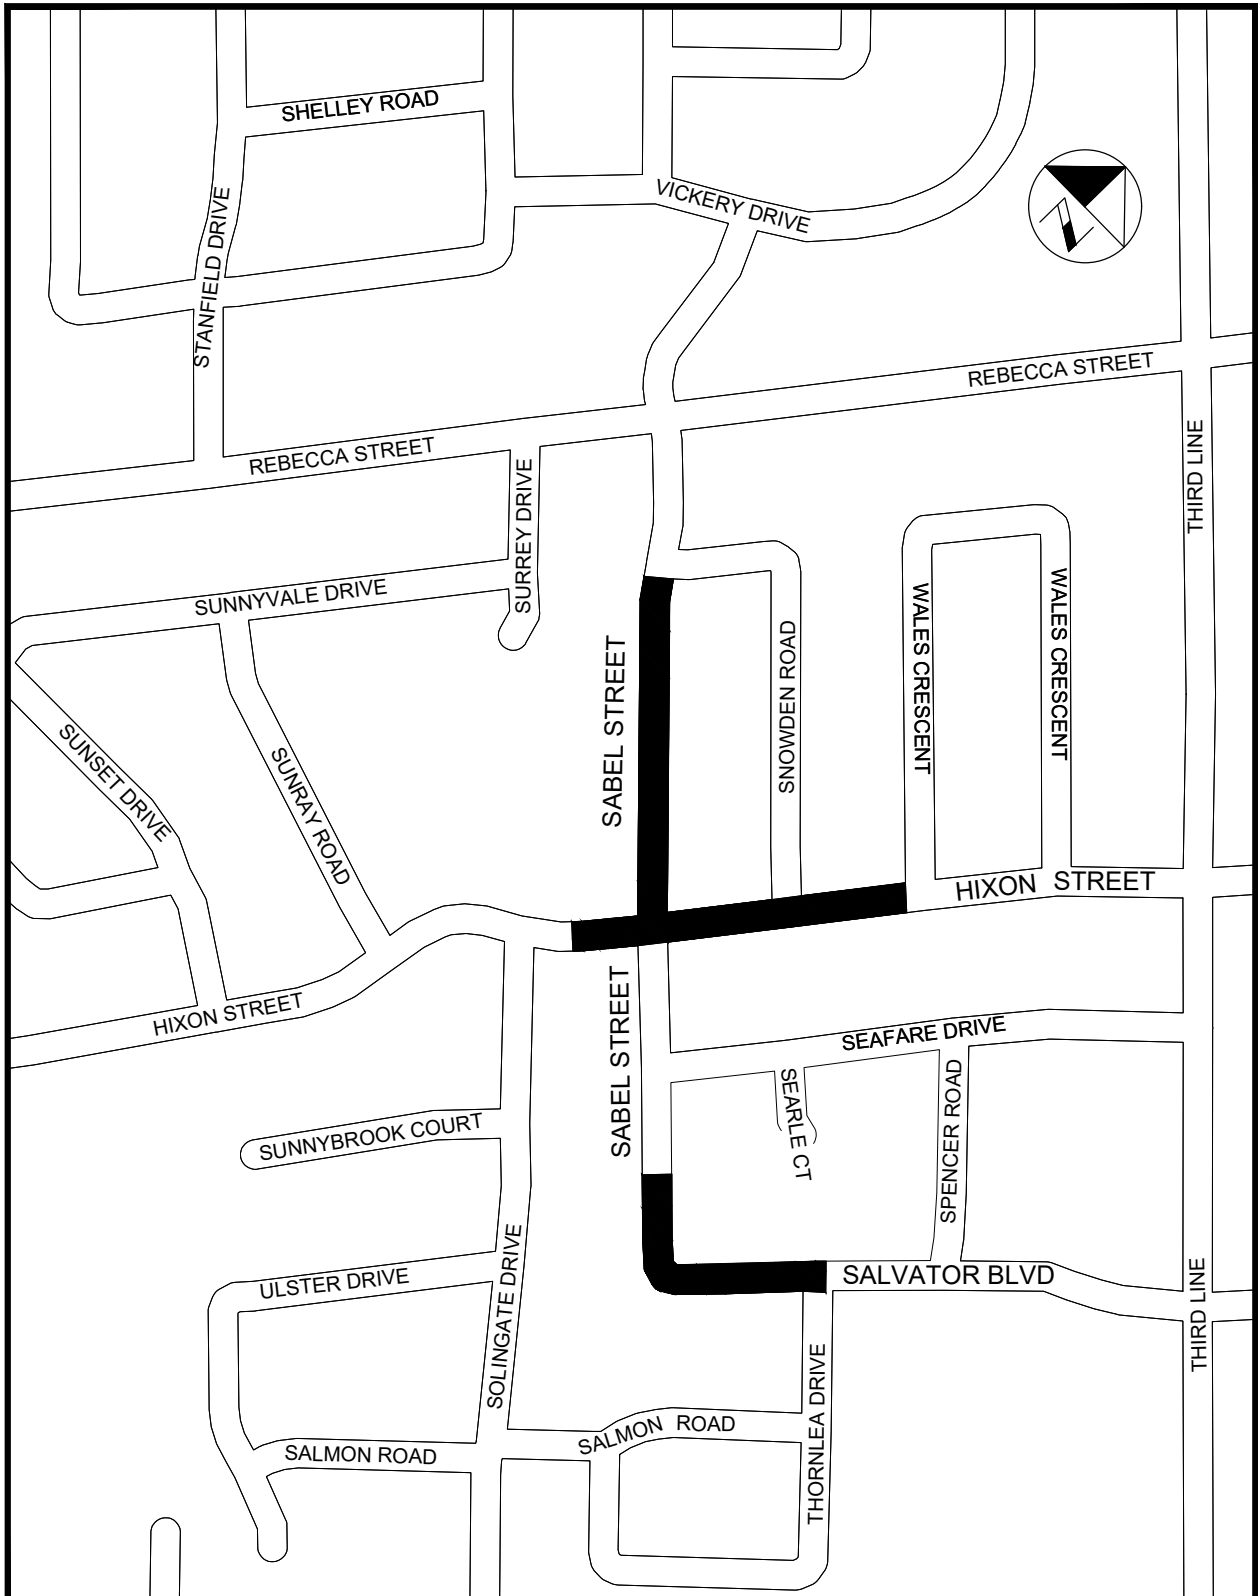

A Notice was previously issued in June, 2019, since this time, the project area has been extended to include Hixon Street, Wellington Crescent, Willis Drive, Fourth Line, Glen Oak Drive and Burton Road. The construction of this project is now tentatively scheduled to begin in the spring of 2020. A more detailed letter will be sent once the proposed construction dates are established.

#### MORE INFORMATION

Building a Better Halton is about more than construction. It is about investments in infrastructure, service delivery improvements and building complete communities that maintain the high quality of life that residents expect and enjoy.
