1.1 About the Halton Region Community Investment Fund (HRCIF)

The HRCIF enhances the health, safety and well-being of Halton residents through funding to non-profit human service programs and initiatives. The HRCIF is part of Halton's approach to community safety and well-being (CSWB) planning and supports a holistic response to human service needs.

To be considered for funding, programs and initiatives must:

- Meet all eligibility criteria outlined in the funding guidelines.
- Support populations that are vulnerable to negative health or social outcomes (i.e., achieve a community health or social services objective).
- Demonstrate an impact on one (or more) of the following **Community Safety and Well-Being objectives**:

- **Health** – A community where everyone is supported to reach both physical and mental well-being.
- **Safety** – A community where everyone can go about their daily activities without risk or fear of harm.
- **Well-Being** – A community where everyone is connected and engaged with a vibrant, healthy environment and strong social supports.

In 2021, applications for HRCIF funding were accepted through an **initial intake** that closed in November 2020.

Additional proposals will be accepted throughout 2021 to respond to community needs. This will include funding to assist agencies to meet the needs of vulnerable populations during the COVID-19 pandemic, address needs identified through the Halton CSWB planning initiative, and support other emergent requests that strengthen the health, safety and well-being of Halton residents.

HRCIF applicants must demonstrate that all public health guidance related to the COVID-19 pandemic will be followed in the delivery of programs and initiatives.

Continuing Proposal Intake

Organizations that meet eligibility criteria can apply to two categories of funding:

- **Category One:** Provides funding to human service programs and initiatives that enhance the health, safety and well-being of Halton residents for short-term, small capital and/or innovative projects. Grants are for one year and up to \$30,000. Non-profit, charitable and unincorporated community organizations may apply.
- **Category Two:** Provides up to three years of funding to human service programs and initiatives that enhance the health, safety and well-being of Halton residents. Applicants must be a registered charity to apply.

Requests should be focused on achieving a defined impact, including measureable objectives and a clear evaluation plan. The need for the program or initiative should be supported by program, population or community data. The HRCIF also encourages **collaborative applications** that demonstrate a coordinated, integrated or collective impact approach to meet community needs.

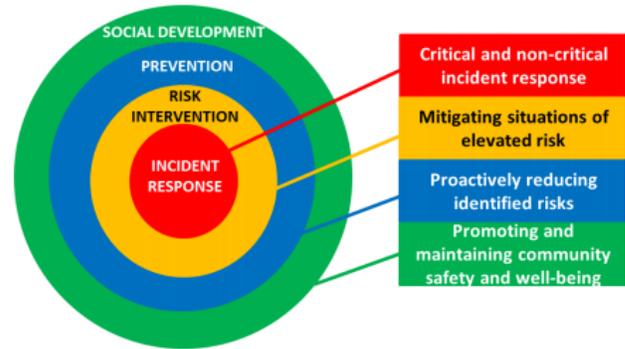

Please note the continuing intake is intended to support new and emergent requests. Please speak with a member of the Human Services Planning and Investment team before re-submitting an application from the 2021 initial intake (see Section 1.8 for contact information).

Please note that a limited number of multi-year commitments may be granted through the continuing intake.

Community Safety and Well-Being (CSWB) Framework

In addition to achieving impact on one (or more) of Halton’s CSWB objectives, applicants are asked to demonstrate where the proposal fits within the following CSWB planning framework. The framework outlines four zones of CSWB planning to ensure a holistic response to community needs. Proposals may fit into one or more zones:

- **Social Development:** Promoting and maintaining health, safety and well-being by improving the social determinants of health among populations and/or addressing the root causes of health and social issues.
- **Prevention:** Applying proactive strategies to reduce known issues or risk factors that impact health, safety or well-being.
- **Risk Intervention:** Identifying, addressing situations of elevated risk before there is a crisis e.g., supporting individuals/families with acute needs that are likely to result in a crisis situation if left unaddressed.
- **Incident Response:** Responding to crisis driven situations to resolve issues that require an immediate intervention or response.

More information on CSWB in Halton is available online by visiting the [CSWB](https://www.halton.ca/cswb) webpage at [halton.ca](https://www.halton.ca).

Applications deemed to be urgent may be expedited through the review process. Applications will be assessed by staff and investment decisions may be informed by a number of mechanisms as appropriate. This may include consultation with the System Leadership Group and other participants in the Halton CSWB model; subject matter experts and staff resources in the Social and Community Services Department, Public Health Department and Halton Regional Police Service; funding partners and others who are well positioned to identify high impact investment opportunities.
- The assessment may include the potential impact of the program or initiative, evidence of the need (including the Region's determination of need), the overall business case (e.g., clear targets/objectives, efficient use of resources, collaboration and sustainability) and other factors determined appropriate by the Region. Halton Region reserves the right to follow-up with applicants for additional information to inform the assessment process. Staff may also consider information outside of that provided within the funding application during the review process.
Note: Applicants submitting a request on behalf of a CSWB Action Table may receive priority.
