

Building a Better Halton

August 9, 2021

Dundas Street (Reg. Rd. 5) Widening 4 to 6 Lanes

Kerns Road to Guelph Line (Reg. Rd. 1)

Notice of Planned Construction – PR-3207B

Widening to 6 lanes

Traffic signals

Multi-use pathways

2025

About This Project

Halton Region is planning to widen Dundas Street (Reg. Rd. 5) from 4 to 6 lanes from Kerns Road to Guelph Line (Reg. Rd. 1), Ward 3, in the City of Burlington (see attached map). This project will improve traffic flows, add multi-use pathways and provide street lighting and traffic signal modifications and upgrades throughout the length of the corridor. The construction of this project is tentatively scheduled to begin in 2025 (subject to approved financing). A more detailed letter will be sent out once the proposed construction dates are established.

As part of the project design process, Halton Region staff and their consultants will be surveying, locating and marking above-ground and underground infrastructure, carrying out underground investigations (e.g. soil and groundwater sampling) and conducting all required site investigations (e.g. tree inventories, archaeological assessments, etc.) within this area.

Please do not disturb or remove any stakes or paint markings from your property. Our staff will remove them once the survey work is completed.

COVID-19 Update: Regional staff and contractors will be following health and safety guidelines set out by the Province and Public Health to help stop the spread of COVID-19. For more information, please visit [halton.ca](https://www.halton.ca).
