

NOTICE OF COMMENCEMENT

MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT STUDY

Halton Hills #4 Wastewater Pumping Station – Premier Gateway Employment Area Town of Halton Hills | PR-2689B

Study

Halton Region is initiating a Municipal Class Environmental Assessment study to identify the preferred site for the Halton Hills #4 Wastewater Pumping Station to support growth in the Premier Gateway Employment Area in the Town of Halton Hills. The new wastewater pumping station will service the area generally located north of Steeles Avenue between Ninth Line and Winston Churchill Boulevard. This project was identified in the 2008 South Halton Water and Wastewater Master Plan Update and confirmed in the 2011 Sustainable Halton Water and Wastewater Master Plan.

The map shows the approximate limits of the study area.

Process

The study will be carried out in accordance with Schedule B of the Municipal Class Environmental Assessment (MCEA), (October 2000, as amended 2007, 2011, 2015 and 2023), which is an approved process under the Ontario Environmental Assessment Act.

Public and review agency consultation is a key element of the MCEA process, and input will be sought throughout the study. Details regarding public consultation opportunities will be advertised as the study progresses.

Upon completion of the MCEA study, a Project File Report will be prepared and placed on the public record for a minimum of 30 days. The document will detail the planning and consultation process and the preferred alternative. A notice will be issued to the public and interested parties when the Project File Report has been placed on the public record.

Comments

If you have any questions, would like to discuss the study, would like to be added to the study mailing list, or require information in an alternate format, please contact a member of the project team:

NOTICE OF PUBLIC INFORMATION CENTRE

MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT STUDY

Halton Hills #4 Wastewater Pumping Station – Premier Gateway Employment Area Town of Halton Hills | PR-2689B

Study

Halton Region is carrying out a Municipal Class Environmental Assessment (MCEA) Study to identify the preferred site for a new wastewater pumping station. The facility, named Halton Hills #4 Wastewater Pumping Station, will support growth in the Premier Gateway Employment Area in Halton Hills. The facility will service the area north of Steeles Avenue between Ninth Line and Winston Churchill Boulevard. This study was identified in the 2008 South Halton Water and Wastewater Master Plan Update and confirmed in the 2011 Sustainable Halton Water and Wastewater Master Plan.

The map shows the approximate limits of the study area.

Process

The study is being carried out in accordance with Schedule B of the Municipal Class Environmental Assessment (October 2000, as amended 2007, 2011, 2015, 2023 and 2024), which is an approved process under the Ontario Environmental Assessment Act.

A key component of the Study is consultation with interested parties, including the public and review agencies, through a Public Information Centre (PIC). The purpose of this PIC is to present and obtain input on the preliminary preferred alternative.

We want to hear from you!

Anyone with an interest in this study is invited to participate virtually. To learn about the study and provide input through our online survey, you can attend our online PIC:

- Date: October 23 to November 23, 2024
