**RE: NOTICE OF CONSTRUCTION
Frozen Water Services Lowering Program, Ward 1, Town of Halton Hills (Acton),
Our File: PR-3055B**

Dear Resident/Property Owner:

Beginning fall 2018, Halton Region will be making improvements to designated water service lines on your street, along with a number of other water services around the Town of Halton Hills (Acton), by lowering and / or insulating the line between the watermain and the curb stop (as shown on page 2). **If you did not previously receive a notice from Halton Region about this work (dated September 17, 2018), these construction improvements will not impact your respective water service line.**

This work is required to help prevent water service lines from freezing in typical winter conditions for homes and/or businesses where there has been a history of freezing on the municipal side.

The contractor for this project is Vic's Group Inc. with project administration being completed by Environmental Infrastructure Solutions Inc. (EIS). Construction is expected to be completed by fall 2019.

Utilities such as Union Gas, Hydro and Bell Canada have already started to locate and mark out their existing infrastructure to prepare for this construction. ***Please do not remove these marker stakes or paint markings. Staff will return to remove them once the project is complete.***

Project Related Information and Recommendations:

- **Traffic Delays** – The project may cause traffic delays, lane shifts or lane restrictions. We will make every effort to minimize any potential inconvenience. Emergency vehicle access will be maintained at all times.
- **Driveway Access** – During the project, direct access to your driveway may be restricted for short periods of time. You will be notified in advance of any planned restrictions.
- **Waste Collection** – Your garbage and recycling will continue to be picked up on the regular scheduled day. It is the contractor's responsibility to move your garbage and recycling to a location where our collection vehicles can pick them up. Please mark your house number on your containers or bins to help with identification.
- **Truck Traffic** – At times you will notice increased truck traffic in the construction area. Please be aware and use extra caution while driving.
- **Vibration** – You may experience some vibration due to the work being done. As a precaution, we recommend that you remove or secure objects on shelves and walls.
- **Mail Delivery** – We do not anticipate any changes or delays to mail delivery. Should there be any changes, you will be notified in advance.
- **Noise** – You may experience noise as a result of construction. Work will be scheduled in accordance with local noise by-laws.
- **Dust and Mud** – Due to the nature of the work, there may be increased levels of dust and mud near the work site. The contractor is required to manage these impacts.
