1.1 About the Halton Region Community Investment Fund (HRCIF)

The HRCIF enhances the health, safety and well-being of Halton residents through funding to non-profit human service programs and initiatives. The HRCIF is part of Halton's approach to community safety and well-being planning and supports a holistic response to human service needs.

To be considered for funding, programs and initiatives must:

- Meet all eligibility criteria outlined in the funding guidelines.
- Support populations that are vulnerable to negative health or social outcomes (i.e., achieve a community health or social services objective).
- Ensure equitable and inclusive service delivery to support diverse, equity-deserving or marginalized populations in Halton.
- Demonstrate an impact in one (or more) of the following **Community Safety and Well-Being (CSWB) objectives**:

- **Health** – A community where everyone is supported to reach both physical and mental well-being.
- **Safety** – A community where everyone can go about their daily activities without risk or fear of harm.
- **Well-Being** – A community where everyone is connected and engaged with a vibrant, healthy environment and strong social supports.

For more information about the CSWB objectives, see the "[CSWB 2020 Population Level Indicator Report](#)" at halton.ca.

An Initial Intake of applications closed in November 2022. Applications will be accepted in 2023 to respond to community needs, including as identified through Halton's CSWB initiative.

HRCIF applicants must ensure all public health guidance related to the COVID-19 pandemic will be followed in the delivery of programs and initiatives.

Continuing Intake

Organizations that meet eligibility criteria can apply to two categories of funding:

- **Category One:** Provides funding to human service programs and initiatives that enhance the health, safety and well-being of Halton residents for short-term, small capital and/or innovative projects. Grants are for a single year and up to \$30,000. Non-profit, charitable and unincorporated community organizations may apply.
- **Category Two:** Provides up to three years of funding to human service programs and initiatives that enhance the health, safety and well-being of Halton residents. Applicants must be a registered charity to apply.

Proposed programs/initiatives must achieve a defined impact, including measurable objectives and a clear evaluation plan. The need for the program or initiative should be supported by program, population or community data.

Operational and administrative costs are acceptable expenses in the HRCIF budget proposal. It is recommended that administrative costs not exceed 10% of the overall request.

Guidelines for both categories are available by visiting the [HRCIF](#) webpage at [halton.ca](#).

The HRCIF also encourages collaborative applications that demonstrate a coordinated, integrated, or collective impact approach to meet community needs. Collaborative proposals refer to when two or more organizations with a well-defined relationship submit an application for funding to achieve a common human services goal. Characteristics of well-defined relationships may include mutual benefit, shared organization decision-making and accountability to partners and the communities they serve. Applicants that act as the lead on a collaborative proposal may also submit a separate proposal for their organization. Please speak with a member of the Human Services Planning and Investment team to determine if this applies to your organization's funding request (see Section 1.8 for contact information).

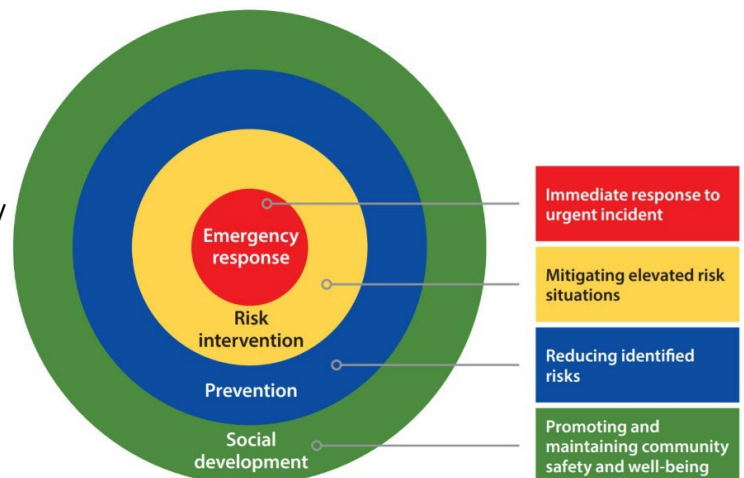

Letter(s) of support from the partner organization(s) must be submitted for applications where another organization(s) is providing free space and/or is essential for the delivery of the program/initiative. Action Table lead(s) are required to submit letter(s) of support for applications submitted on behalf of current CSWB Action Tables.

Please note the continuing intake is intended to support new and emergent requests. Please speak with a member of the Human Services Planning and Investment team before re-submitting an application from the 2023 initial intake (see Section 1.8 for contact information).

Community Safety and Well-Being (CSWB) Framework

In addition to achieving impact on one (or more) of Halton's CSWB objectives, applicants are asked to demonstrate where the proposal fits within the following CSWB planning framework. The framework highlights four key areas that work together to make communities safer and healthier, including:

- **Social development** to improve the social determinants of health (the things that make us healthy) and reduce the probability of harm and victimization;
- **Prevention** to proactively implement programs to reduce risks to community safety and well-being before they result in crime, victimization and / or harm;
- **Risk intervention** to prevent an incident from occurring while reducing the need for incident response; and
- **Emergency response** for immediate and reactionary responses that involve a sense of urgency.

More information on CSWB in Halton is available online by visiting the [CSWB](#) webpage at [halton.ca](#).

1.2 Overview of Category One

Category One provides one year of funding to human service programs and initiatives that support populations vulnerable to negative health or social outcomes within one (or more) of Halton's CSWB objectives. Applicants must be an incorporated non-profit to apply. Unincorporated community organizations may also apply under the sponsorship of a registered charity that meets all eligibility criteria.

Category One will support short-term, small capital and/or innovative projects, including piloting a new program, developing an innovative approach to service delivery, program improvements and/or capital items/equipment to improve service delivery. Funding requests can include operational/administrative costs and capital items/equipment required to implement and deliver the program/initiative or improve service delivery. Where feasible, applicants are encouraged to have revenue sources in addition to HRCIF funding. Full eligibility requirements are outlined in Section 1.6.

If the total budget of the program/initiative exceeds the \$30,000 maximum request amount available through Category One, the applicant must be able to demonstrate that funds to offset the full cost of the program/initiative are available or have been secured.

This may include consultation with the CSWB System Leadership Group and other participants in the Halton CSWB model; subject matter experts and staff resources in the Social and Community Services Department, Public Health Department and Halton Regional Police Service; funding partners and others who are well positioned to identify high impact investment opportunities.
- The assessment may include the potential impact of the program or initiative, evidence of the need (including the Region's determination of need), the overall business case (e.g., clear targets/objectives, efficient use of resources, collaboration and sustainability) and other factors determined appropriate by the Region. Halton Region reserves the right to follow-up with

applicants for additional information to inform the assessment process. During the review process, staff may also consider information outside of that provided within the funding application.

- All grant applicants will be notified if their application was approved or declined for funding. The Region shall determine the amount of funding to be distributed to applicants that are approved for funding.
