Building a Better Halton

Watermain Replacement on Morris St. (East of Chapel Street)

Notice of Construction – PR-3055B

November 2019 to May 2020

About This Project

IMPROVEMENTS

Beginning November 2019, Halton Region will be replacing the watermain on Morris Street, east of Chapel Street (Ward 3, in the Town of Halton Hills), to prevent the watermain from freezing in typical winter conditions (see attached map). The plan is to replace the watermain in November 2019 with final restoration to be completed in the spring, 2020.

The contractor for this project is Vic’s Group with project administration by Environmental Infrastructure Solutions (EIS).

PLANNING AHEAD

To help you plan ahead for construction activity, please read the project related information below. Wherever possible, mitigation plans will be put in place to minimize disruptions.

Driveway access: Direct access to your driveway may be restricted for short periods of time. We will provide advance notice of any planned restrictions.

Dust and mud: There may be increased levels of dust and mud near the work site. The contractor is required to manage these impacts.

Lawn irrigation system: If you have a lawn irrigation system, please locate, disconnect and remove any sprinkler heads within the public road allowance. Halton Region will reimburse you for the reinstallation of the removed irrigation systems.
**Noise:** You may experience noise as a result of Regional improvements. We will schedule work in accordance with local noise by-laws.

**Property restoration:** Final property restoration will be completed in the spring 2020.
- If your driveway has been impacted by this work, the contractor will inform you in advance of the driveway restoration work to allow the vehicles to be removed from the driveway or out of the garage as required.
- If your lawn or landscaping has been impacted by this work, new sod will be placed.

**Temporary watermain:** You may experience temporary periods of lower water pressure during the installation of the new watermain. Your regular pressure will be restored once the new watermain is installed.

**Traffic delays:** This work may cause traffic delays, lane shifts or lane restrictions. We will make every effort to minimize any potential inconvenience. Emergency vehicle access will be maintained at all times.

**Truck traffic:** You will notice occasional increases in truck traffic around the ongoing work. Please be aware and use extra caution while driving.

**Vibration:** You may experience some vibration due to ongoing work. As a precaution, we recommend that you remove or secure objects on shelves and walls.

**Waste collection:** Your garbage and recycling will continue to be picked up on your regular scheduled collection day. The contractor is responsible for moving your garbage and recycling to a location where our collection vehicles can pick them up. Please mark your house number on containers or bins to help with identification.

**Water and wastewater disruptions:** There may be some disruption to your water services during the course of the project. Halton Region will provide at least 48 hours advance written notice of any scheduled shutdowns or disruptions.

**MORE INFORMATION**

Building a Better Halton is about more than construction. It is about investments in infrastructure, service delivery improvements and building complete communities that maintain the high quality of life that residents expect and enjoy.
