Watermain Replacement on Morris Street (East of Chapel Street)

Maintaining clean
drinking water

Notice of Construction Update – PR-3055B

September / October 2020

About This Project

IMPROVEMENTS

As part of the Region's Frozen Water Services Lowering Program, the Region replaced the watermain on Morris Street, east of Chapel Street, Ward 3, in the Town of Halton Hills, (Georgetown) in December 2019 to prevent the watermain from freezing in typical winter conditions (refer to attached map). Halton Region plans to complete the restoration work for this project including new sidewalk panels and paving on Chapel Street. Please note that the resurfacing of Morris Street, east of Chapel Street, will be completed by the Town of Halton Hills as part of their Pavement Management Program in a future year.

In order to maintain access to Morris Street, east of Chapel Street, during the installation of the sidewalk panels, the Contractor will install a ramp for vehicular use.

COVID-19 Update: Regional staff and contractors will be following health and safety guidelines set out by the Province and Public Health to help stop the spread of COVID-19. For more information, please visit [halton.ca](https://www.halton.ca).

PLANNING AHEAD

To help you plan ahead for construction activity, please read the project related information below. Wherever possible, mitigation plans will be put in place to minimize disruptions.

Dust and mud: There may be increased levels of dust and mud near the work site. The contractor is required to manage these impacts.

Noise: You may experience noise as a result of Regional improvements. We will schedule work in accordance with local noise by-laws.

Traffic delays: This work may cause traffic delays, lane shifts or lane restrictions. We will make every effort to minimize any potential inconvenience. Emergency vehicle access will be maintained at all times.

Truck traffic: You will notice occasional increases in truck traffic around the ongoing work. Please be aware and use extra caution while driving.

Vibration: You may experience some vibration due to ongoing work. As a precaution, we recommend that you remove or secure objects on shelves and walls.

Waste collection: Your garbage and recycling will continue to be picked up on your regular scheduled collection day. The contractor is responsible for moving your garbage and recycling to a location where our collection vehicles can pick them up. Please mark your house number on containers or bins to help with identification.

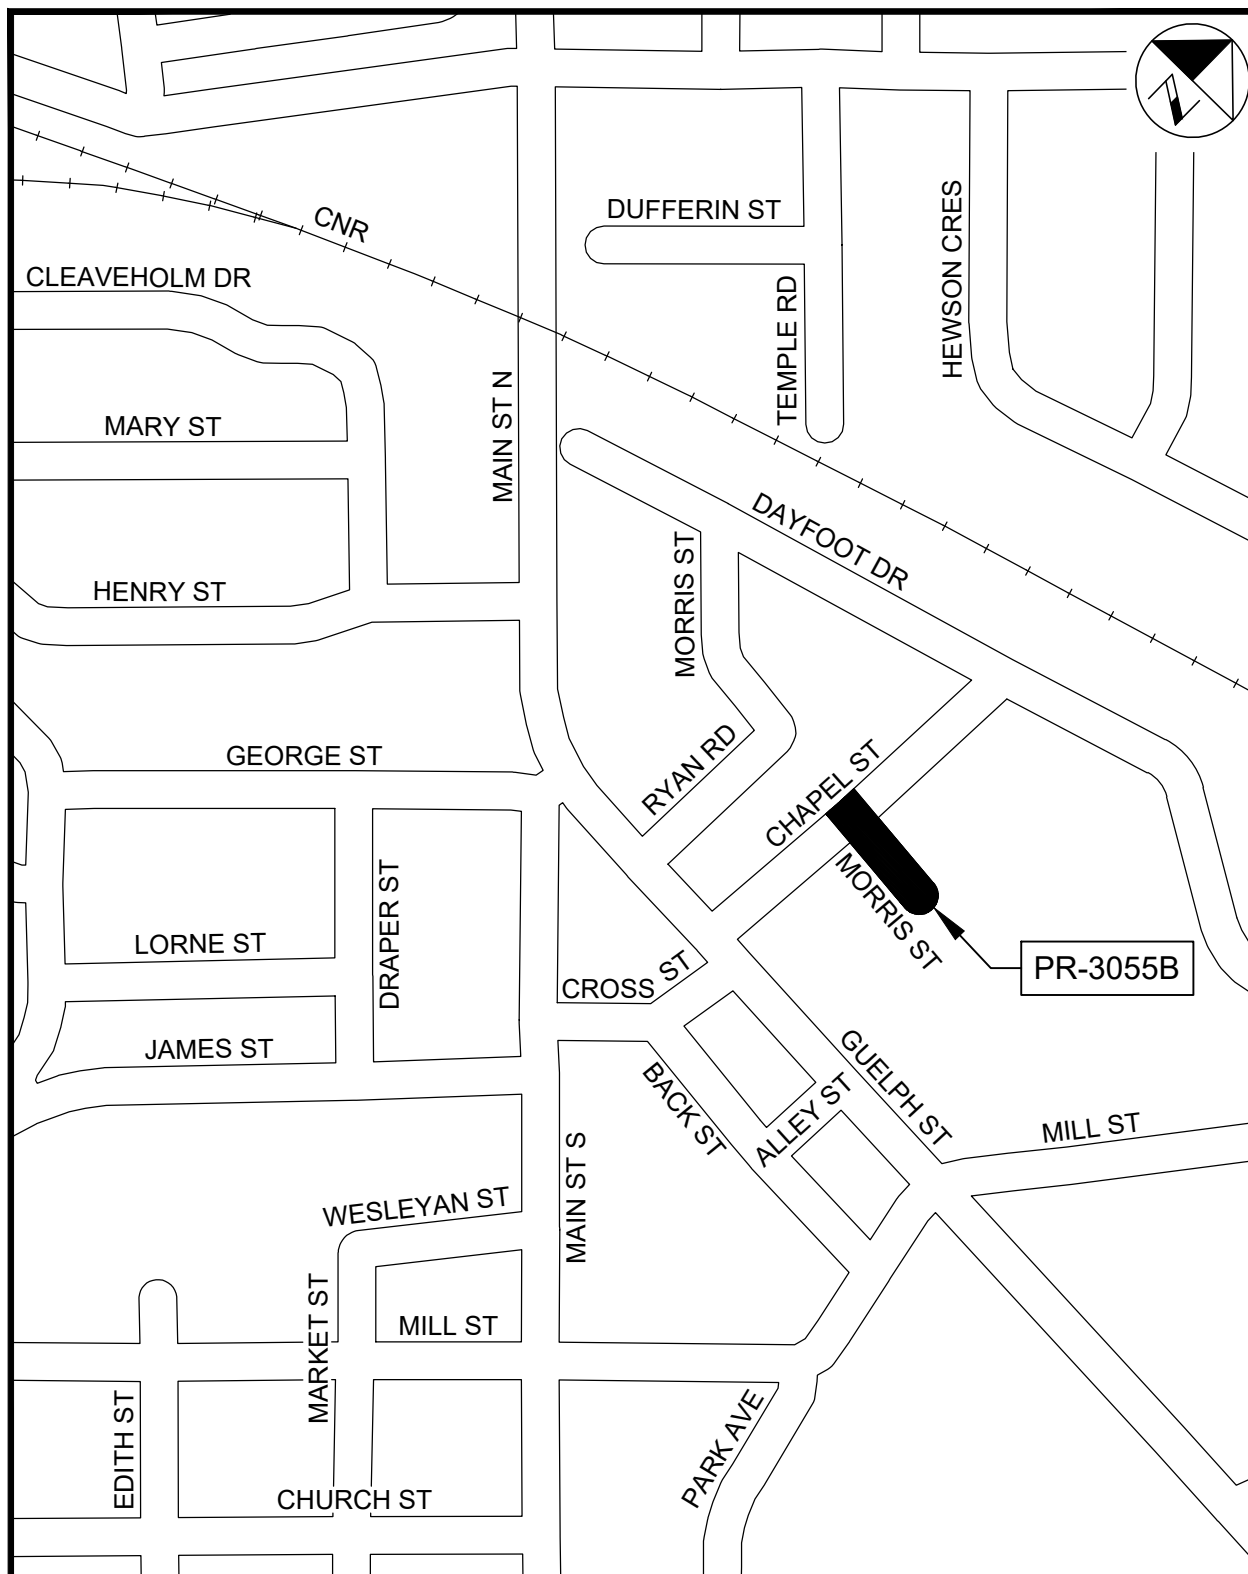

MORE INFORMATION

Building a Better Halton is about more than construction. It is about investments in infrastructure, service delivery improvements and building complete communities that maintain the high quality of life that residents expect and enjoy.
