

## **Appendix A.2.1 Notice of Study Commencement**

# NOTICE OF STUDY COMMENCEMENT

## MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT STUDY

Norval West Bypass Transportation Corridor Improvements  
Guelph Street (Highway 7) to 10 Side Road (Regional Road 10), including 10 Side Road from  
Tenth Line to Winston Churchill Boulevard/Adamson Street (Regional Road 19), Town of Halton Hills  
Our File: PR-2921B

### Study

Halton Region is initiating a Municipal Class Environmental Assessment (Municipal Class EA) Study for the Norval West Bypass from Guelph Street (Highway 7) to 10 Side Road (Regional Road 10), including 10 Side Road from Tenth Line to Winston Churchill Boulevard/Adamson Street (Regional Road 19), in the Town of Halton Hills. The need for greater connectivity and mobility (to 2031) in the southeast quadrant of the Town of Halton Hills was identified in both the Halton-Peel Boundary Area Transportation Study (HPBATS) and the Region's Transportation Master Plan – The Road to Change.

A number of road improvement alternatives will be examined as part of this Municipal Class EA Study. Road improvements, such as active transportation, intersection operations, as well as structural, drainage, cross-sectional and natural environment requirements, will be assessed through the study.

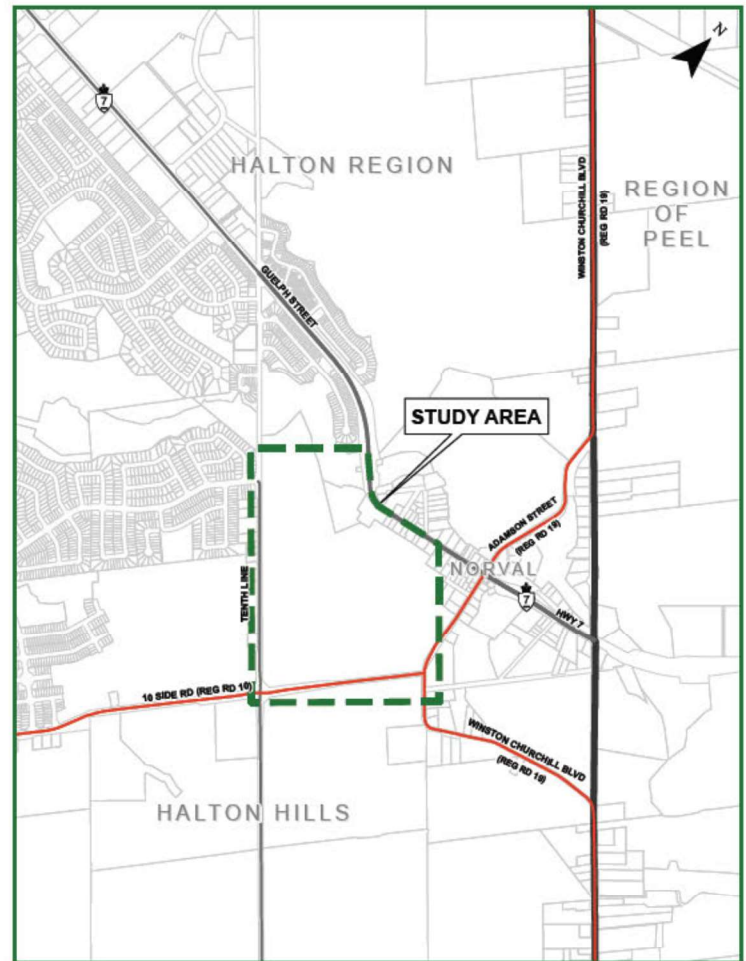

### Process

This notice signals the commencement of the Municipal Class EA Study, which will define the problem, identify and evaluate alternative solutions, and determine a preferred solution in consultation with the Town of Halton Hills, regulatory agencies and the public. This study is being conducted in compliance with Schedule C of the Municipal Class Environmental Assessment (October 2000, amended 2007, 2011 and 2015), which is approved under the *Ontario Environmental Assessment Act*.

Public and review agency consultation is a key element of the Municipal Class EA process and input will be sought throughout this study. Details regarding forthcoming public consultation will be advertised as the study progresses. Upon completion of the study, an Environmental Study Report (ESR) will be prepared and placed on the public record for a minimum 30-day review period. The document will detail the planning and consultation process and the preferred alternative.

### Comments

Comments received through the course of the study will be considered and documented in the Municipal Class EA Study Report. Additional information related to the study and consultation process may be obtained through the project webpage at [halton.ca](http://halton.ca).

This notice was first issued on Thursday, January 23, 2020

# Norval West Bypass – Mailing List (Map)

01/13/20

What to do:  
 Step 1: Look for the type of EA project in column B that applies to you.  
 Step 2: Complete columns C to J for that project.  
 Step 3: Send this form in Excel format to the MECPP regional office email address where the project is located.  
 MECPP regional office email addresses are listed at  
[www.ontario.ca/page/preparing-environmental-assessments](http://www.ontario.ca/page/preparing-environmental-assessments)

	Class EA/Streamlined EA	Proponent Name	Proponent Contact	Project Name	Project Schedule	Project Type	Project Location	MECCP Region	Project Initiation Date
1	CO - Remedial flood and erosion control projects								
2	CO - Tunnel - Class EA								
3	Hydro One - Minor transmission facilities								
4	MEA - Class EA for municipal infrastructure projects	Haldon Region	Jeffrey Reid jeffrey.reid@haldon.ca	Knox West Bypass Transportation Corridor Improvements	Schedule C	Municipal road projects	Haldon, Regional Municipality of	Central	1/23/2020
5	Ministry of Infrastructure - Public work								
6	MNDM - Activities of the Ministry of Northern Development and Mines under the Mining Act								
7	MNRD - Provincial parks and conservation reserves								
8	MNRD - Resource stewardship and facility development projects								
9	MTO - Provincial transportation facilities								
10	O. Reg. 101/07 - Waste management projects								
11	O. Reg. 116/01 - Electricity projects								
12	OWA - Waterpower projects								

Enter the proponent's name.

Enter the name and email address of the person who the MECPP should contact about your project. This should be the same contact person who is listed on the notice.

Enter the project name as it appears on the notice.

Select the project schedule from the drop-down menu.

Select the project type from the drop-down menu.

Select the name of the municipality or unorganized/municipal area where your project is located from the drop-down menu.

Select the MECPP region from the drop-down menu. Flood the MECPP region's watershed to find the MECPP region where your project is located.

Enter the date that the Streamlined EA process was initiated (e.g. notice of commencement). This date may be when the project notice was first published.

Subject: Notice of Class Environmental Assessment Norval

CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe. If you are unsure or need assistance please contact the IT Service Desk.

Good Evening:

The weekend Independent Free Press identified the commencement of the Norval West Bypass Transportation Corridor Improvements. I write to highlight our local organization known as the "Norval Community Association," incorporated in 1976 but in existence much longer. I write as the President of the organization but not from direction of the board at this time.

I write tonight to ensure that you might accommodate an early community meeting with our organization, Halton Hills planning staff and yourselves, so that we can highlight some of our thoughts.

The most recent process for upgrades to Adamson Street in the village of Norval was in my opinion lacking in foresight. Firstly to be clear Adamson Street is not Winston Churchill BLVD. but a village street with significant historic value to our community and the world. More on this later in my comments.

Adamson Street is a given road and Winston Churchill Blvd. does not continue through the village. This should be addressed or the continued impact on the village will just get worse.

Firstly, the Halton Region approved Norval Secondary Plan was sadly ignored during the construction of Adamson Street. Here are some examples: ancient telephone poles (1950 era) were left embedded into new pavement, no interlocking brick, no fancy street lamps, no trees planted, no gateway signage installed, or other features identified in the secondary plan were incorporated in the new roadworks. The modern telephone poles should be buried, ancient telephone poles removed and light fixtures in keeping with the historic village should be installed. None of these happened and it wasn't for lack of trying to get someone to listen to the needs of the village.

Famous Canadian author Lucy Maud Montgomery lived in Norval from 1926-1935 and visitors from all over the world presently visit Norval. The local heritage society purchased the author's house with a vision of creating an

international tourist site and museum.

I personally welcome the bypass road but really want to stress that after years of discussion about the Adamson Street improvements our Norval Secondary Plan were almost completely ignored. I hope it will be different during this process.

I am leaving for Australia on February 17 returning on April 21. I do hope that you both will take time to read the Norval Secondary Plan and ensure guidelines are incorporated into your new plans to protect all that we value in Norval.

Please let me know next steps.

Hello Gentlemen ,

Today I received correspondence by post, with respect to the above captioned subject, your file PR-2921B.

I scanned the Region of Halton website, however there is too much to navigate to get to what I'm looking for.

At this time, I'm requesting any specific concepts being put forth for consideration for road re-direction along with land use within the scope of the small map included and dated 'This notice was first issued on Thursday, January 23, 2020.'

Kindest best regards

Thank-you for your interest in the Norval West Bypass Municipal Class Environmental Assessment (MCEA) Study, within the Town of Halton Hills.

It was good to speak to you last Friday. As a follow-up to our telephone conversation, the Norval West Bypass was initially identified through the Halton-Peel Boundary Area Transportation Study (HPBATS) and confirmed as part of Halton's Transportation Master Plan (TMP) – The Road to Change. Below are links to both background studies.

HPBATS

<http://www.peelregion.ca/pw/transportation/residents/halton-peel-boundary-area-transportation-study.asp>

Note that the HPBATS study is available on the Region of Peel's website.

TMP

<https://www.halton.ca/For-Residents/Roads-Construction/Infrastructure-Master-Plans/Transportation-Master-Plan-to-2031-The-Road-to-C>

While the Norval West Bypass project website is set-up, at this time it only contains that Notice of Study Commencement. Below is the link and this website will be updated as the study progresses.

Norval West Bypass

Hello Jeffrey:

Thank you for taking the time to speak with me this afternoon. The information that you provided was very helpful and informative.

Not only am I a frequent user of the subject transportation corridor, I also reside within the defined Norval West Bypass area. As such, if you could respectfully add my contact information to any and all distribution lists relating to the Norval West Bypass Transportation Improvements and other related transportation studies, I would be grateful.

I reside at [REDACTED]

Joseph Harvey Heritage Planner Ministry of Tourism, Culture and Sport	January 29, 2020 Letter	<ul style="list-style-type: none"><li>• Interest in archaeological resources, built heritage resources, and cultural heritage resources</li><li>• Suggested that any engagement with Indigenous communities includes a discussion about known or potential cultural heritage resources that are of value</li></ul> <p>Requested for HIA’s and Archaeological Resources Assessment to be sent to MTCS for review Keep consultation with MHSTCI throughout EA process.</p>	Y	<p>Thank you for providing your letter (MHSTCI ref: 0011990) for the above-mentioned Halton Region project. Halton Region has retained Stantec Consulting Ltd. to complete the Municipal Class Environmental Assessment (EA) for the Norval West Bypass Transportation Corridor from Guelph Street (Highway 7) to 10 Side Road (Regional Road 10), including 10 Side Road from Tenth Line to Winston Churchill Boulevard/Adamson Street (Regional Road 19), in the Town of Halton Hills. The project is complying with the approved planning process for a Schedule ‘C’ Municipal Class EA.</p> <p>The purpose of this letter is to respond to the interests you raised with respect to Archeological, Built Heritage and Cultural Heritage resources, and how they will be addressed by this project. Screening and assessment of potential built heritage and archaeological resources will be completed as described below.</p> <p><b>Archeological Resources:</b> A Stage 1 Archaeological Assessment (AA) will be completed as per the <i>Standards and Guidelines for Consultant Archaeologists</i> (MHSTCI 2011). The Stage 1 AA will be submitted to the MHSTCI upon completion, with results summarized in the ESR.</p> <p><b>Built Heritage and Cultural Landscape Assessment:</b> Heritage resources, including built heritage and cultural heritage landscapes, will be discussed within a Cultural Heritage Assessment Report (CHAR) that will provide information for consideration in the evaluation of design alternatives as well as the understanding of project effects. Recommendations for future work will be based on the vicinity of each heritage resource to Project activities. The CHAR will also take into</p>
