Notice of Study Commencement

NOTICE OF STUDY COMMENCEMENT

MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT STUDY

North Halton Coordinated Municipal Class Environmental Assessment Study,
Town of Milton/ Town of Halton Hills PR-3430, PR3390, PR3381

Study

Halton Region's Transportation Master Plan – The Road to Change identified the need for additional capacity in North Halton to improve network connectivity and address forecasted travel demand to 2031. Halton Region is initiating a Municipal Class Environmental Assessment Study to consider a range of options for corridor improvements on:

- James Snow Parkway from Britannia Road to Highway 401 (Milton)
- Steeles Avenue from Regional Road 25 to Trafalgar Road (Milton/ Halton Hills)
- Regional Road 25 from 5 Side Road to 10 Side Road (Halton Hills)

A wide range of multi-modal transportation improvements will be considered for the corridors including roadway widening, cross-sectional requirements, active transportation, transit supportive infrastructure, intersection improvements, over-all traffic operations, as well as the impact of such improvements on the social, cultural and natural environments.

Process

The study will be carried out in accordance with Schedule C of the Municipal Class Environmental Assessment (MCEA), (October 2000, as amended 2007, 2011, 2015, and 2023), which is an approved process under the *Ontario Environmental Assessment Act*.

Public and review agency consultation is a key element of the MCEA process and input will be sought at key milestones throughout this study. Details regarding upcoming Public Information Centres (PIC) will be advertised as the study progresses. Upon completion of the study, an Environmental Study Report (ESR) will be prepared and placed on the public record for a minimum 30-day review period. The document will detail the planning and consultation process and the preferred alternative for each corridor.

Comments

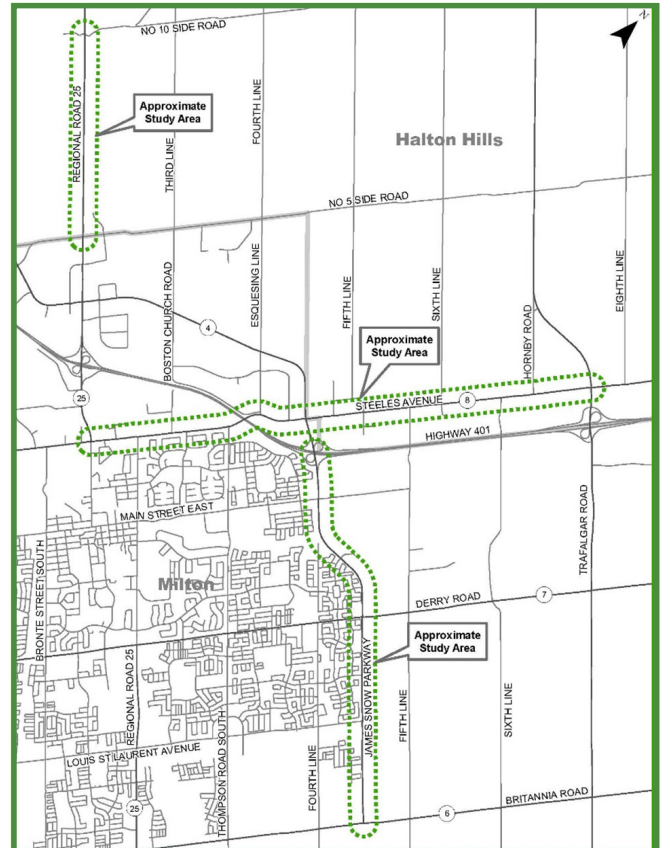

Comments received through the course of the study will be considered and documented in the MCEA Study Report. For more information on the study and consultation process, please visit the Municipal Class Environmental Assessment Studies page on halton.ca.

Provide your input on Halton’s 2023-2026 Strategic Business Plan

Regional Council is developing a Strategic Business Plan to guide our work for the next four years. Between March 23 and May 4, we are asking the community to participate in consultation activities and provide feedback on our proposed themes, goals, actions and measures. Here’s how to get involved:

- take our short online survey at halton.ca; and/or
- attend our virtual public open house on April 25 from 6:30 to 8 p.m. through Zoom or by phone.

To learn more, take the survey or add a virtual meeting to your calendar, please visit halton.ca/strategicplan. Thank you for your participation!

Gary Carr
Regional Chair

Meetings at Halton Region

Regional Council meetings are taking place through web conferencing until further notice. Videos will be posted to halton.ca.

 Please contact us, as soon as possible, if you have any accessibility needs at Halton Region events or meetings.

Notice of Public Information Centre #1

NOTICE OF PUBLIC INFORMATION CENTRE #1
MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT STUDY

North Halton Coordinated Municipal Class Environmental Assessment Study
Town of Milton / Town of Halton Hills PR3430, PR3390, PR3381

Study

Halton Region is carrying out a Municipal Class Environmental Assessment (MCEA) Study to consider a range of multi-modal transportation improvements including roadway widening, cross-sectional requirements, active transportation, transit supportive infrastructure, intersection improvements, and overall traffic operations on the following corridors:

- James Snow Parkway (Regional Road 4) from Britannia Road (Regional Road 6) to Highway 401;
- Steeles Avenue (Regional Road 8) from Regional Road 25 to Trafalgar Road (Regional Road 3); and
- Regional Road 25 from 5 Side Road to 10 Side Road.

The impacts of transportation improvements on social, cultural, and natural environments will be assessed and evaluated throughout the study.

Process

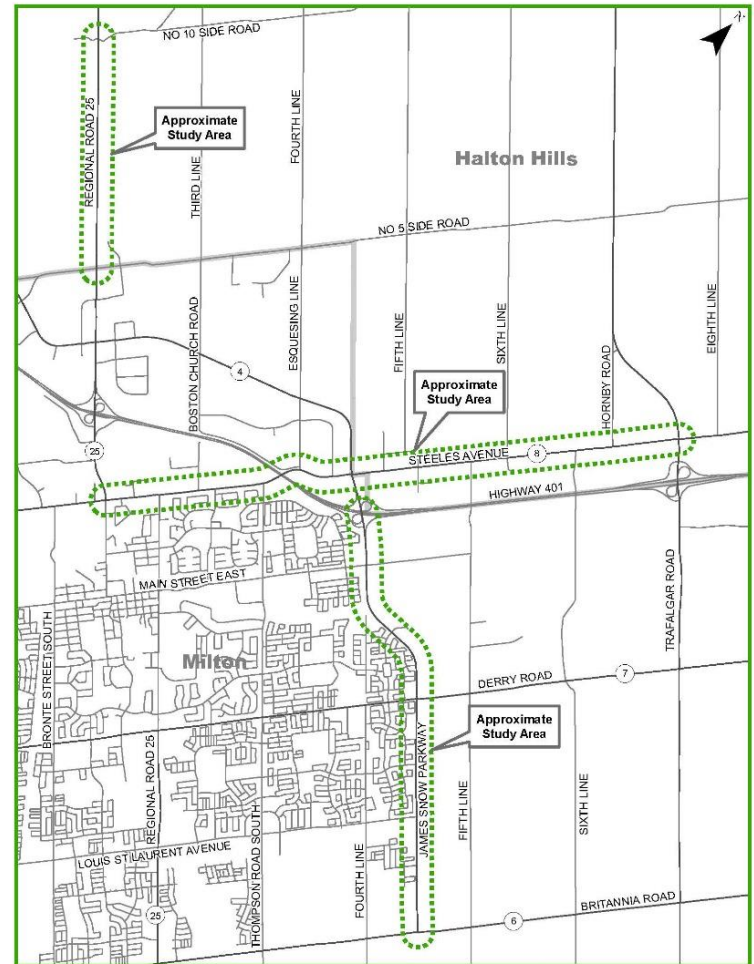

The study is being carried out in accordance with Schedule C of the MCEA, (October 2000, as amended 2007, 2011, 2015 and 2023), which is an approved process under the *Ontario Environmental Assessment Act*.

A key component of the study is consultation with interested parties (public and review agencies) through Public Information Centres (PIC). The purpose of the first PIC is to review and obtain input on the study area needs and opportunities, background information, selection of the preferred solution, and next steps in the study.

Anyone with an interest in this study is invited to participate virtually. Members of the public can visit the online consultation webpage on **halton.ca** to view pre-recorded videos about the study, provide input through an online survey and learn more. The online PIC will be available as follows:

Date: Thursday, November 23, 2023 to Thursday, December 21, 2023

Link: Visit the North Halton Coordinated MCEA webpage at halton.ca

The map shows the approximate limits of the study areas.
This notice was first issued November 23, 2023.

Comments

Please provide your comments by **Thursday, December 21, 2023**. For more information about this project, please visit the project website at halton.ca. If you would like to be added to the study mailing list or if you are unable to review the PIC material online and require an alternate format, please contact a Project Manager below.

Notice of Public Information Centre #2

NOTICE OF PUBLIC INFORMATION CENTRE #2

MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT STUDY

North Halton Coordinated Municipal Class Environmental Assessment Study
Town of Milton/Town of Halton Hills | PR-3430, PR3390, PR3381

Study

Halton Region is carrying out a Municipal Class Environmental Assessment (MCEA) Study to consider a range of multi-modal transportation improvements including roadway widening, cross-sectional requirements, active transportation, transit supportive infrastructure, intersection improvements, and overall traffic operations on the following corridors:

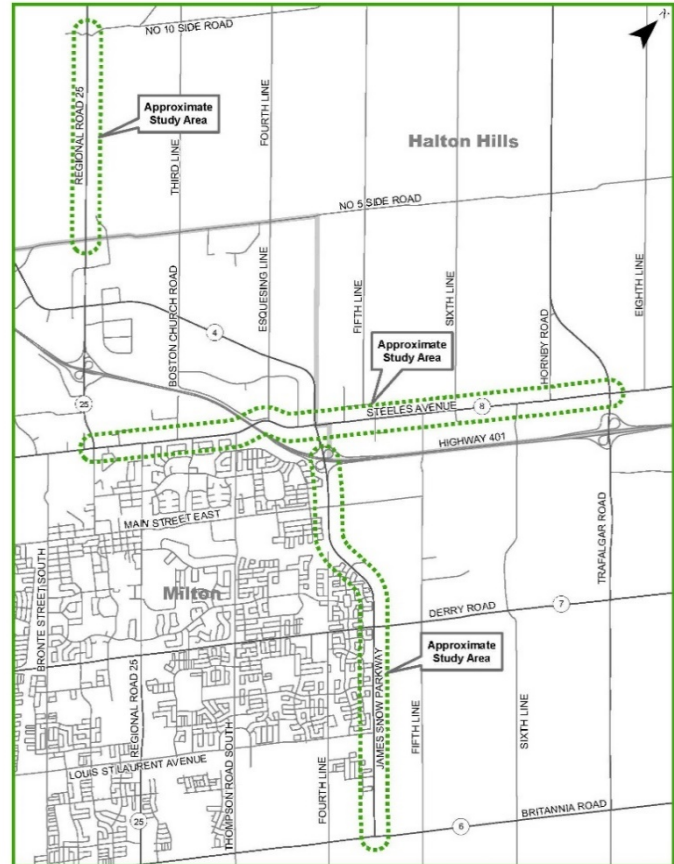

- James Snow Parkway (Regional Road 4) from Britannia Road (Regional Road 6) to Highway 401;
- Steeles Avenue (Regional Road 8) from Regional Road 25 to Trafalgar Road (Regional Road 3); and
- Regional Road 25 from 5 Side Road to 10 Side Road.

A number of road improvement alternatives have been examined as part of this Study for each corridor. The impacts of improvements on the social, cultural, and natural environments have been assessed and evaluated throughout the study.

Process

The Study is being carried out in accordance with Schedule C of the MCEA (October 2000, as amended 2007, 2011, 2015 and 2023), which is an approved process under the *Ontario Environmental Assessment Act*.

A key component of the study is consultation with interested parties (public and review agencies) through Public Information Centres (PICs). The purpose of this PIC is to review and obtain input on the preliminary preferred design alternative for each corridor. Anyone with an interest in this study is invited to participate virtually.

The map shows the approximate limits of the study areas.

We want to hear from you!

Anyone with an interest in this study is invited to participate virtually. To learn about the study and provide input through our online survey, we invite you to attend our online PIC:

Date: December 9, 2024 to January 10, 2025

Link: Visit the North Halton Coordinated MCEA page on **halton.ca**

Comments

Please provide your comments by **January 10, 2025**. For more information about this project, please visit the project website at **halton.ca**. If you would like to be added to the study mailing list, prefer to share comments by phone or email, or require information in an alternate format, please contact one of the Project Team members below.

Notice of Study Completion

Municipal Class Environmental Assessment Study

Regional Road 25 from 5 Side Road to 10 Side Road

Town of Halton Hills, PR-3430

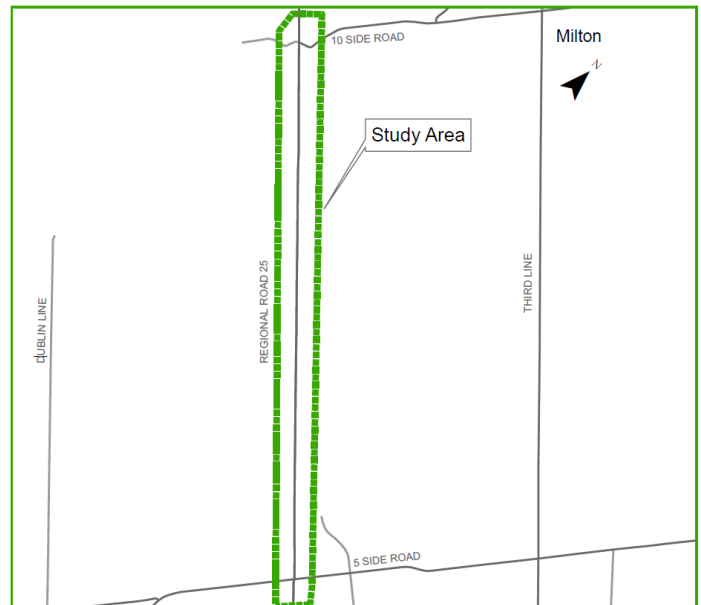

About the Study

Halton Region has undertaken a Municipal Class Environmental Assessment (MCEA) Study for Regional Road 25 from 5 Side Road to 10 Side Road as part of the [North Halton Coordinated MCEA Study](#) in the Town of Halton Hills.

Process and Consultation

The study was carried out in accordance with Schedule C of the Municipal Class Environmental Assessment (October 2000, as amended 2007, 2011, 2015, 2023 and 2024), which is an approved process under the *Ontario Environmental Assessment Act*. A key component of the MCEA Process is consultation with the public, review

agencies, First Nations and Indigenous Communities, and other interested parties. Two Public Information Centres were held throughout the study to obtain input on the project. The Environmental Study Report (ESR) has been prepared to document the planning, public consultation, and decision-making process undertaken for this study.

Comments and more information

By this Notice, the ESR is being placed on the public record for a 30-day review period starting September 16, 2026 and ending October 16, 2026 in accordance with the requirements of the MCEA Process. Subject to comments received as a result of this Notice, and the receipt of necessary approvals, Halton Region intends to proceed with the detailed design and construction of the preferred preliminary design as documented in the ESR.

The ESR is available to review on the [MCEA Study Page](#) on halton.ca.

Interested persons may provide written comments to our project team by October 16, 2026. All comments and concerns should be sent to Halton Region's Project Manager, Gino Dela Cruz at Gino.DelaCruz@halton.ca.

In addition, a request may be made to the Ministry of the Environment, Conservation and Parks for an order requiring a higher level of study (i.e., requiring an individual/ comprehensive Environmental Assessment approval before being able to proceed), or that conditions be imposed (e.g., require further studies), only on the grounds that the requested order may prevent, mitigate or remedy adverse impacts on constitutionally protected Indigenous and treaty rights. Requests on other grounds will not be considered. Requests should include the requester contact information and full name.

Requests should specify what kind of order is being requested (request for additional conditions or a request for an individual/comprehensive environmental assessment), how an order may prevent, mitigate or remedy those potential adverse impacts, and any information in support of the statements in the request. This will ensure that the Ministry is able to efficiently begin reviewing the request.

The request should be sent in writing by mail or email to:

Minister of Environment, Conservation and Parks

Ministry of Environment, Conservation and Parks
777 Bay Street, 5th Floor
Toronto, ON M7A 2J3
minister.mecp@ontario.ca

Director, Environmental Assessment Branch

Ministry of Environment, Conservation and Parks
