

Reporting Out-of-Province COVID-19 Vaccination

Last updated September 20, 2021

Receiving all the required doses of a COVID-19 vaccine series is an important step to keeping you safe from infection. Most COVID-19 vaccines approved for use by Health Canada require two doses.

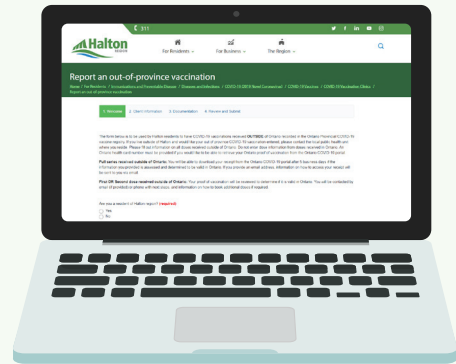

If you received a COVID-19 vaccine outside of Ontario:

- Submit proof of vaccination for the COVID-19 vaccine that you received outside of Ontario (see instructions below).
- Once you complete the online form, your submission will be assessed.
- If needed, you will be e-mailed instructions after a minimum of ten business days on how to get a COVID-19 vaccination. If you do not have an e-mail address, you will be contacted by phone.

How to submit proof of an out-of-province COVID-19 vaccination:

These instructions are for Halton residents only. If you do not live in Halton, please contact your local public health unit.

- 1 Go to halton.ca/COVIDvaccines.
- 2 Select the **Report an out-of-province COVID-19 vaccination** button. This will open the out-of-province proof of COVID-19 immunization form.
- 3 Enter the required information on the form.
- 4 Enter in dose information for COVID-19 vaccines received outside of Ontario only. You will be asked to upload supporting documentation. These documents should include:
 - your name
 - date administered
 - the COVID-19 vaccine type
 - location the vaccine was received
- 5 Click the green **Review and Submit** button at the bottom of the form.

Accepted file types are .pdf, .png, .jpg and .jpeg. If your document is double sided, please submit both sides of the document. Make sure the files are clear and readable. If you are unable to upload your supporting documents, please call 311 for help.

If you do not know which COVID-19 vaccine product you received, or you do not have proof of immunization, try to contact the clinic or location where you received your vaccine. If you cannot provide proof of vaccination you need to restart your vaccine series.

You will get a confirmation email from Halton Region Public Health once your submission is complete.

Valid vaccine records will be added to the Provincial COVID-19 immunization database. Once verified, you will be able to retrieve an Ontario COVID-19 vaccination receipt from the Ontario COVID-19 portal (<https://covid19.ontariohealth.ca/>) or by calling the Provincial Vaccine Information Line at 1-888-999-6488.
