

Building a Better Halton

Project #3055

Frozen Water Services Lowering Program

Maintaining clean
drinking water

Notice of Completion & Property Restoration

Fall 2018 to Fall 2019

About This Project

IMPROVEMENTS

Halton Region has recently completed improvements to your water service to help prevent your water service line from freezing in typical winter conditions.

Please note that final property restoration will be completed within the next 2 – 3 weeks.

- If your driveway has been impacted by this work, the contractor will inform you in advance of the driveway restoration work to allow the vehicles to be removed from the driveway or out of the garage, as required.
- If your lawn or landscaping has been impacted by this work, new sod will be placed, however this work may be delayed dependent on weather in order to improve the chance of the sod surviving.

If you have any specific questions related to the upcoming restoration work, please contact our site inspector, Peter Horvath, at 437-775-8258 or peter.horvath@eisgroup.ca.

We would like to thank you for your ongoing patience and cooperation during construction.

Building a Better Halton

Project #3055

MORE INFORMATION

Building a Better Halton is about more than construction. It is about investments in infrastructure, service delivery improvements and building complete communities that maintain the high quality of life that residents expect and enjoy.
