Halton Region's Database Search for

Environmental Source Information[1]

(previously called the Hazardous Land Use and Chemical Occurrence Inventory Search, Environmental Protection GIS Database Search)

Data Summary and the Procedure for Responding to Public Inquiries

---

Halton's *Environmental Source Information Database* is a directory of documented sites and records in the Region that have the potential to contaminate the surrounding environment. The database includes information regarding current and historic land uses and activities that could be hazardous, environmental occurrences, incidents and other information related to the environmental condition of a site in Halton Region.

Data requests for this information must be submitted in writing via e-mail along with the completed and signed waiver. Please include a location map of the subject property including property boundary lines and major road intersections nearby.

Data for this inventory includes information from the following sources:

- Halton Region Planning Services' Geographical Information System (GIS)
- Regional Planning Files,
- Halton Region's Business Directories, Chamber of Commerce Business Directories
- Technical Standards and Safety Authority's Inventory of Retail Fuel Storage Tanks
- Environment Canada's National Pollutant Release Inventory
- MECP's records on:
    - Hazardous Waste Information System (Carriers, Generators, and Receivers)
    - Certificate of Approvals or Environmental Compliance Approvals
    - Waste Disposal Site/Landfill Inventory
    - Inventory of PCB Storage Sites
    - Spills Action Centre Inventory
    - Pesticide Licensee Database
- Environmental Bill of Rights
- Fire Insurance Plans

The **ESI Database Product Fee for 2026** is **$209.47** (includes HST) per parcel, which can be paid via Electronic Funds Transfer (EFT), or credit card. The Region also requires a signed waiver (attached) before the data will be released. If the inquiry relates to more than one parcel of land, separate inquiries must be submitted.

The ESI database search report requires **5 to 10 business days** to complete. For rush requests, please specify the preferred due date in the request email and Halton Region staff will make reasonable efforts to accommodate your request timeline.

Please be advised that Halton Region accepts no responsibility for the accuracy and completeness of the information or the omission of data. Any use which a third party makes of this information, or any reliance on or decisions to be made based on this information, are the responsibility of such third parties.

For more information on Halton Region's *Environmental Source Information Database*, or to request a data search, please contact sourcewater@halton.ca.

[1] The new name for the inventory is to maintain consistency with the MECP Schedule D requirements.

Waiver for

Environmental Source Information Database Search

(previously called Hazardous Land Use and Chemical Occurrence Inventory Search,
Environmental Protection GIS Database Search)

I hereby acknowledge and agree that the Region of Halton cannot guarantee or warrant that the information contained in the Environmental Source Information Database (previously the *Hazardous Land Use and Chemical Occurrence Inventory Search Environmental Protection GIS Database Search)* is accurate or correct.

I agree to waive the Region of Halton from any claim or liability that can or may arise, from the provision of this information.
